## MERION FERTILIZER

**20 - 5 - 5**

The revolutionary new fertilizer that supplies adequate amounts of plant food in the proper proportions. Full 20 units of nitrogen, from many sources including organics and urea formaldehyde compounds.

Research on the needs of grasses since World War II has shown that a really balanced grass turf fertilizer should contain about four times as much nitrogen as phosphorus and potash. Experts agree that a 4-1-1 ratio is about right for lawns that were formerly overfed with phosphorus and potash by the older formulas such as 5-10-5 or 4-12-4. With Vaughan's One Shot Merion Fertilizer you have quick and slow releasing forms of nitrogen thus giving you a fertilizer that will feed over the entire season.

A proven sales getter at full 40% mark up.

## Merion Formula

Once again, Vaughan's offers the finest all-around lawn grass formula ever developed . . . a blend including four new, improved grasses selected as Champions by National Turf Research

**Merion Kentucky Blue Grass** is a distinct variety found growing on a tee of the Merion Golf Club near Philadelphia. Its exceptional color, vigor and other advantages attracted interest and resulted in tests by experiment stations, golf clubs and private growers all over the U.S.A. Vaughan's pioneered the commercial development of this new variety, now judged superior to common Kentucky Blue Grass by most authorities. More than a million seeds of this famous variety are found in every pound of MASTER BLEND Merion Formula.

**Delta and Newport Kentucky Blue Grass**, known for exceptional seedling vigor. Delta and Newport varieties were added to Master Blend because they start growing more quickly than other perennial grasses and provides early cover to hold down weeds and shelter the slower-to-germinate Merion.

**Pennlawn Creeping Red Fescue**, a hybrid grass bred at Pennsylvania State University, was added to the Master Blend Formula because it provides thick green cover for shady places and sandy soil and shows excellent heat and disease resistance.

The result is a beautiful lawn . . . a tough lawn . . . a lawn which rolls out a green carpet under more different conditions of soil and climate and shade. No wonder Vaughan's Master Blend Merion Formula is creating a sensation from coast to coast!
